

Michael LoneWolf is presenting a project on Kickstarter...

A book on electronic devices...

“Transistors and Other Semiconductor Devices: Clearly, Simply, Intuitively, and Concisely Explained”

This book will cover fundamental electronic devices, which make the world go around. They include diodes, LEDs, MOSFETs, JFETs, BJTs, and other electronic semiconductor devices.

This book has been written for every electronics hobbyist, experimenter, tinkerer, maker, and hacker. It is also for electrical and computer technician and engineering students, all electronics technicians, and everyone in related fields. Those interested in robotics, computer science, and digital logic will also gain a deeper understanding of electronics after reading this book.

What is Kickstarter? This website allows the public (like the dear reader) view posted projects in need of funding, select the ones they are interested in, and donate a desired amount to those projects.

The person in need of funding, Michael LoneWolf in this case, would get nothing unless the funding goal is reached.

I am seeking \$33,000. The book manuscript is already complete, and is currently at 277 pages (full letter size, final page count expected to be 350 pages).

Funding is needed to have the book professionally edited, illustrations professionally drawn, and an e-book version created with features specifically for interactive e-book readers.

Money is also needed for a small print run for brick-and-mortar retail stores.

I have approached all top publishers in the textbook industry, but all of them would like to see pre-existing sales before they commit. So, let's **SHOW THEM huge sales! A publisher can jump in if they make their mind up later.**

The Kickstarter model works with different monetary funding amounts rewarding those who donate with matching rewards. I am offering the following tiered rewards:

<p>Pledge \$1 and you will get: A BIIIIIG THANK YOU!</p>	<p>Pledge \$5 and you will get: Above, plus your name listed as a contributor on my website!</p>	<p>Pledge \$10 and you will get: Above, plus you will get an e-book version when it is finished!</p>
<p>Pledge \$20 and you will get: Above, plus a print version when finished.</p>	<p>Pledge \$50 and you will get: Above, plus an autographed version of the book, and a conversation or consultation with me over e-mail. I will help with any questions you have!</p>	<p>Pledge \$100 and you will get: Above, plus a phone conversation or consultation. Also, you will receive three special gifts! (What they are is a secret for competitiveness)</p>
<p>Pledge \$500 and you will get: Above, plus your name listed in acknowledgments section of the book.</p>	<p>Pledge \$1,000 and you will get: Above, plus your name will be listed separately from general acknowledgments, and you can include (an appropriate) personal message, a greeting, logo, or something about yourself which I will print in the book.</p>	<p>Pledge \$2,000 and you will get: Above, plus you or your local organization will get a personal visit from me, so that I can take a look at your bench setup, and compare it to mine! Lunch included afterward!</p>

Also, I will give you a complimentary copy of the manuscript if you promise to get back to me with critique, notes, and suggestions.
